## **ABOUT PROJECT**

### **International Volunteering with INEX-SDA**

Every year INEX-SDA organizes over 30 international voluntary workcamps across the Czech Republic where a group of local and foreign volunteers support ecological, social or cultural-historical community projects. By organising international voluntary projects, educational programs and campaigns we assist to the development of tolerant and open society and encourage active and responsible approach to the world around us both locally and globally. We create space in which people can gain new experience, expand their skills and develop their own views of the complexity of the world around them.

We believe that volunteering is an asset, beneficial for all individuals and communities involved and we strive to promote volunteering and its perception as a way to tolerance, recognition and sustainable future.

Volunteer will have an opportunity to get to know the wide range of INEX-SDA activities and projects and get involved in many of them according to his/her own personal interest. However, his/her work will be mainly focused on supporting our activities in International Volunteering. ESC volunteer will support the organisation of the over 30 workcamps in the Czech Republic, communicate with our partner organisations abroad and administer hosting of volunteers from all over the world.
