Voluntary Work

A voluntary work is done by a person who does something willingly and without being forced or paid to.

When you apply voluntary service, there's always a thrill of experiencing different things, meeting new people, work together to fully immerse yourself into a new culture.

Voluntary work in the Philippines aims to provide you with an environment wherein you will achieve great inter-cultural understanding and appreciation of local lifestyle by exposing yourself with the daily realities of the local community. Sharing everyday life in another culture is the best way to get an understanding of it. You should be prepared to take over a certain amount of responsibility and work together with your co-workers.

Volunteering for development is guaranteed to be a life-changing experience. Once positive change is experienced it hopes to usher better condition to hone your knowledge, attitude and skills towards the project and hopefully it would mark a lasting positive impact in your life and become a citizen of the world continuously striving for social development.

The Philippines is a fast growing country in Southeast Asia, with multiculturalism and rich Biodiversity that makes it an exciting and dynamic place to learn and grow.

We are very much looking forward to welcome you in Philippines.

Hosting Situation

There are two different host situations:

1. Living in a Host family, expect to have a shared room with siblings or another member of the family. Typical Filipino family generally revolves around the extended family, including parents, grandparents, aunts, uncles, cousins and other relatives.
2. Live at the project site, with other (Staff or/and international) volunteers working at the same place. Living at the project site offers you a more independent living situation than staying with a host family but still there are rules that you need to follow and adopt.
